Professional Experience

The LEGO Group

Senior Software Engineer - *Copenhagen, Denmark | January 2022 - Present*

I'm currently working on a crowdfunding and crowdsourcing platform, where my role involves close collaboration with the product team to deliver an exceptional product tailored to the preferences of high-end LEGO fans.

TypeScript, NestJS, NextJS, Postgres, R, GraphQL

Siteimprove

Senior Software Engineer - *Copenhagen, Denmark | April 2019 - December 2021*

With a focus on products, I specialized in content validation for websites, providing scalable solutions to enterprise clients.

C#, React, JavaScript, TypeScript, Python, CSS/SASS, Accessibility, API, gRPC, Oracle

Mono Solutions

Senior Full Stack Developer - *Copenhagen, Denmark | April 2017 - May 2019*

Developed and delivered a Website Generator SaaS solution tailored to meet the needs of small and medium-sized businesses. Member of a full-stack development team, with a primary emphasis on backend and infrastructure development.

PHP, JavaScript, VueJS, AWS, API, CI, TypeScript, MySQL/MariaDB, Redis, Unit Testing.

Serious Games Interactive

Full Stack Developer - *Copenhagen, Denmark | April 2016 - February 2017*

As a video game developer, my primary focus was on designing and developing educational games for websites and mobile platforms

PHP, Yii, JavaScript, TypeScript, Phaser, Ionic, jQuery, API

Gesto

Backend and DevOps - *Córdoba, Argentina | January 2014 - March 2016*

As the lead Backend Developer within the startup, I assumed responsibility for the development of APIs and the creation and maintenance of the essential infrastructure.

Python, Flask, Amazon Web Services, API, Continuous Integration, Unit Testing, MySQL

Olapic

Backend Engineer - Córdoba, Argentina | June 2014 - March 2016

During my t time here, I contributed significantly as a member of the Backend Team. My primary focus revolved around API development, facilitating seamless integrations between services, and actively engaging in data analysis to enhance platform performance.

PHP, Python, Amazon Web Services, MySQL, Redis, API, XML, JSON, CSV

Globant

Frontend and Perl Developer - Córdoba, Argentina | May 2013 - May 2014

In my initial role, I served as a Frontend UI Developer within a financial organization, crafting user interfaces to enhance the user experience. Subsequently, in my second role, I transitioned into a Perl Developer position, supporting the operations of a prominent South American airline.

JavaScript, HTML5, CSS3, SASS, Perl

Flexxus SA

Delphi Developer - Córdoba, Argentina | August 2009 - May 2014

I undertook the responsibility of maintaining and enhancing an ERP software built using Delphi, with a dedicated focus on catering to the needs of SMBs.

Delphi, Firebird, Databases

Famar Fueguina

IT Support and Sysadmin - Tierra del Fuego, Argentina | March 2006 - July 2009

Initially, I held the role of managing hardware maintenance and providing on-site IT support. As my responsibilities expanded, I assumed the role of overseeing Windows Server and Debian server administration, ensuring the seamless operation of critical IT infrastructure.

ISS, Active Directory, WSUS, Squid Proxy, Nagios and MS-SQL Server.

Municipality of Río Grande

IT Support - Tierra del Fuego, Argentina | March 2004 - March 2006

IT support to the government of the city with more than 300 users in different areas.

Education

CENT 35

Technical Degree in Systems Analysis
Río Grande, Argentina | 2004 - 2007

UTN - National Technology University

Technical Degree in Programming
Río Grande, Argentina | 2008 - 2009
